PROFESSIONAL SUMMARY Full Stack Developer specialized in MERN stack and Next.js. Experienced in building scalable multi-vendor marketplaces and service platforms. Proficient in RESTful APIs, secure authentication (JWT), and database management (PostgreSQL/MongoDB).

TECHNICAL SKILLS

- **Frontend:** JavaScript (ES6+), TypeScript, Next.js, React.js, Redux Toolkit, Tailwind CSS.
- **Backend & DB:** Node.js, Express.js, Prisma, Mongoose, PostgreSQL, MongoDB.
- **Tools:** Git, VS Code, Vercel, Zod, SSLCommerz, Firebase.

PROJECTS

Guptodhan | Multi-Vendor, Buy-Sell & Service Super App (Backend) Role: Backend Developer | Tech: Node.js, Express.js, MongoDB (Mongoose), JWT

- **Core Architecture:** Engineered a scalable RESTful API architecture supporting Multi-Vendor E-commerce (Subscriptions, Inventory), C2C marketplaces, and Donation Campaigns.
- **Advanced Authorization:** Implemented robust logic-based **RBAC (Role-Based Access Control)** to securely manage distinct hierarchies (User, Vendor, Admin, Provider) and approval workflows.
- **Performance Optimization:** Utilized **MongoDB Aggregation Pipelines** for complex data reporting and implemented indexing to enhance search speeds.
- **Security & Validation:** Secured endpoints with **JWT authentication** and enforced strict server-side input validation using **Zod/Joi** to ensure data integrity.
- **Collaboration:** Documented APIs via **Postman**, enabling efficient collaboration with frontend developers.

Vistara | Local Guide Booking Platform (Full Stack) Links: Live Site | GitHub Role: Full Stack Developer | Tech: Next.js 16 (App Router), PostgreSQL, Prisma, Tailwind CSS Links: [Live Site](#) | [GitHub](#)

- **Modern Architecture:** Developed a scalable platform using **Next.js 15 App Router** and **Server Actions**, ensuring faster page loads and improved SEO performance.
- **Security & Access Control:** Implemented robust authentication with **JWT** and secure **Middleware** to manage granular RBAC (Admin, Guide, Tourist).
- **Payment & Communication:** Integrated **SSLCommerz** gateway with secure **IPN/Webhook handling** for transaction verification and **Nodemailer** for automated booking alerts.
- **Data Visualization:** Built interactive dashboards featuring real-time analytics and booking trends using **Recharts** to provide actionable insights for admins.

ParcelGo | Parcel Delivery Management System

- **Links:** [Live Site](#) | [GitHub](#)
- **Role:** Frontend Developer | **Tech:** Next.js 16, PostgreSQL, Prisma
- **Key Work:** Designed separate dashboards for Admins, Senders, and Receivers using protected routes. Utilized **RTK Query** for caching and implemented advanced tables with server-side pagination and filtering.

EDUCATION

Bachelor of Arts (Honors) in Philosophy | National University | 2023 - 2024 – Present

Complete Web Development Course | Programming Hero | 2024
