WORK EXPERIENCE

Guptodhan | Dhaka, Bangladesh

Project Manager & Full Stack Developer

June 2025 – Present

- Project Leadership: Spearheading the development of a unified 4-in-1 digital ecosystem — E-commerce, Service Marketplace, Classifieds (Buy & Sell), and Charity Donation.
- Legacy Migration: Led the migration of a legacy WordPress site to a custom Next.js & MERN stack, significantly improving performance, SEO, and user retention.
- Team & Resource Management: Directing developers and designers to build scalable features while ensuring timely milestone delivery.
- Complex Logic Design: Architected high-security dashboards for Admin, Vendors, and Service Providers to manage bookings, inventory, and users independently.

Web Developer

February 2024 – May 2025

- E-commerce Management: Handled inventory management, product listing optimization, and order tracking for the platform.
- Maintenance & Operations: Performed routine health checks, plugin updates, and minor UI customizations to maintain site stability.

MAJOR TECHNICAL PROJECTS

OutreachAI – B2B Cold Email & Lead Generation SaaS

Next.js, Python FastAPI, Google Gemini 2.5 Flash, BullMQ, Redis

- Built a multi-agent B2B SaaS platform for autonomous cold email outreach and lead generation at scale.
- Integrated Google Gemini 2.5 Flash for AI-powered personalized email generation tailored to each prospect.
- Engineered a multi-agent pipeline for autonomous lead scraping, enrichment, and outreach automation.
- Implemented BullMQ/Redis job queues for scalable background processing, campaign scheduling, and retry logic.

Guptodhan Mega Platform

Next.js, MERN, Redis, NextAuth.js

- Multi-Vendor E-commerce (3-Tier Roles): Robust vendor management with real-time analytics and inventory tracking.
- Classified Buy & Sell: High-performance user-to-user marketplace with dynamic search filters.
- Charity & Donation Module: Secure and transparent donation tracking for community-based charity projects.
- Service Marketplace (3-Tier Roles): Distinct interfaces for Admin, Service Providers, and Users (Booking & Reviews).

Vistara – Premium Travel & Local Guide Booking

Next.js, TypeScript, PostgreSQL, Prisma

- Built a boutique travel platform with calendar-based scheduling for guides and interactive financial dashboards.
- Integrated bilingual support (Bengali/English) and skeleton loaders for a polished UI experience.
